

OUTDOOR MOUNT KITS

60
100
250
325

for L.B. White Guardian® forced air heaters.

The Guardian® optional outdoor mount offers advantages in performance, cost, and reliability.

BETTER PERFORMANCE & GREATER CONVENIENCE

Performance

Fresh, outside air is drawn into the heater for combustion. That means cleaner combustion and better inside air quality.

Reliability

Longer life. Heaters and gas piping are not exposed to the corrosive barn environment, minimizing component damage from dust and moisture accumulation. Enjoy lower maintenance costs.

Cost

Lower installation expenses and fewer replacement parts.

Convenience

No heater in the way inside the building. Since heater maintenance is performed outside, biosecurity concerns are decreased.

Inlet duct

L.B. White Guardian® Heater Outdoor Mount Kits

Item	For Models	Part Number	Shipping Weight
